CIP courses

COATINGS ARE THE FIRST LINE OF DEFENSE AGAINST THE EFFECTS OF CORROSION – ARE YOU PREPARED?

Exova RPC is the only licensed provider of NACE Coating Inspector (CIP) Program Level 1 and Level 2 in the Netherlands, Germany, France, Norway and Singapore.

The Coating Inspector Program is the best recognised and most specified coating inspector certification program. It trains coating professionals to properly inspect the surface preparation and application of a protective coating system on a variety of structures in any industry.

CIP COURSES AT EXOVA

CIP LEVEL 1

This 6 day long course offers instruction on the technical and practical fundamentals of coating inspection work for structural steel projects.

CIP LEVEL 2

This 6 day long course focuses on advanced inspection techniques and specialised application methods for both steel and non-steel substrates, including concrete.

OTHER CIP COURSES BY NACE INTERNATIONAL

CIP 2 MARITIME EMPHASIS

This course highlights the skills and knowledge required to correctly perform a thorough coatings inspection aboard commercial ships, in keeping with IMO and IACS rules.

CIP LEVEL 3 PEER REVIEW

CIP Level 3 is an intensive, detailed oral examination in front of a three member review board, that lasts approximately two hours.

The exam includes a series of questions that test the candidate's practical and theoretical knowledge of coatings and coating inspection.

CIP ONE-DAY BRIDGE

This course provides specialised training, related to coating inspection of bridges, that meets the training requirements specified by the U.S. Department of Transportation.

NUCLEAR POWER PLANT TRAINING FOR COATING INSPECTORS

This course is designed specifically to train CIP-certified Coating Inspectors to conduct inspections in nuclear power plants (NPPs) as well as familiarise non CIP-certified personnel with NPP coating requirements.
